

New Publications from NTK

NTK is pleased to announce new publications in our popular series of study guides. Written and edited by our highly experienced subject specialists and editors, NTK's study guides are tailor-made for students taking SAT and IB examinations.

SAT Chinese Subject Test

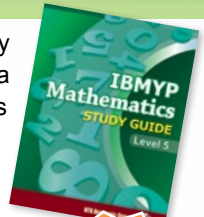

- Six full-length practice tests with answers, covering listening, usage and reading comprehension allow familiarization with test format
- Detailed explanations of grammar and vocabulary commonly seen on past SAT tests improve test-taking techniques and scoring
- Audio CD and transcripts of listening test material

Now available

IBMYP Mathematics Level 5

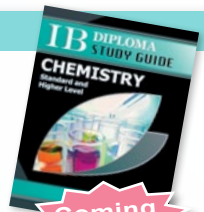

- Carefully selected topics with level of difficulty that closely match the requirements of both IBMYP Level 5 and IB Diploma level math for a smooth transition between the two programmes
- Clear and concise explanation of basic knowledge and theory
- Detailed examples and a wide selection of practice questions
- Extended Level topics that provide prerequisite knowledge recommended for students taking IB Diploma Mathematics at Higher Level

Now available

IB Diploma Chemistry

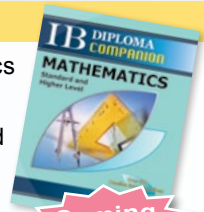

- Covers both Standard and Higher Level material
- Clear and concise explanations of terms and concepts
- Examples with detailed explanations
- Two full-length practice examinations with detailed solutions
